SUMMARY

Results-driven Computer Science student with **8.6 CGPA** and strong foundations in Data Structures, Algorithms, and Object-Oriented Programming. Experienced in **3+ full-stack and machine learning projects**, using Java, Spring Boot, React, and Python. Built scalable applications handling **100+ users/data instances** and developed ML models with **90%+ accuracy**. Seeking software engineering or AI/ML internship opportunities to apply technical and problem-solving skills.

TECHNICAL SKILLS

Programming Languages: Java, C++, Python, HTML, JavaScript(**500+ DSA problems solved**)

Web and Backend: Spring Boot, Node.js, Express.js(**3+ projects**), , REST APIs, Microservices

Frontend: React.js, HTML, CSS(**2+ responsive applications**)

Databases: MySQL, PostgreSQL, MongoDB(**3+ integrated projects**)

Tools and Platforms: Git, Docker, AWS, Maven

Machine Learning: Scikit-learn, TensorFlow, Pandas, NumPy (**2+ ML models built**)

Core Concepts: Data Structures & Algorithms, DBMS, Operating Systems, OOP, Agile/Scrum

Soft skills: Team Collaboration, Problem resolution, Effective communication, Flexible, Logical reasoning, Leadership initiative

PROJECTS

Financial Dashboard

Feb 2025 – May 2025

Web Development Project

Node.js, Express.js, HTML, CSS, JavaScript,

- Built a **financial dashboard web application using MVC architecture** with **secure role-based authentication (3+ roles)** and **real-time data handling**, improving **code maintainability (35%)** and **response efficiency (25%)** while ensuring **full data privacy compliance**.

Cancer Detection using Machine Learning

July 2025 – September 2025

Machine learning Project

Python

- Developed and optimized a supervised machine learning classification model using Scikit-learn on the Wisconsin Breast Cancer dataset, achieving 92–96% accuracy through data preprocessing, PCA-based dimensionality reduction (60%), multi-algorithm comparison (Logistic Regression, SVM), hyperparameter tuning (15% improvement), and enhanced interpretability using SHAP and LIME. .

AI Resume Analyzer

April 2026 – May 2026

Artificial Intelligence (AI) & Full Stack Web Development

Java, Spring Boot, React, AI, REST APIs

- Developed an AI-powered resume analyzer using Spring Boot and React that extracts and evaluates resume content using NLP-based models, providing insights on skills, strengths, and improvement areas .

RESEARCH SECTION

Big Data Management Framework

Sept 2024 – Jan 2025

- Conducted comparative analysis of Hadoop, Spark, and Flink, designed 2+ large-scale data processing models (10K+ records), and delivered 10+ technical presentations to improve system selection and team decision-making efficiency. .

CERTIFICATION

- MathWorks **MATLAB Onramp** - Certified in core programming, data manipulation, and plotting techniques.
- Successfully completed the **NPTEL "Machine Learning"** certification course(12 week course)
- **AlgoUniversity** - Completed a rigorous university-level curriculum on **Graph Theory** under the mentorship of a Codeforces Master (Manas Kumar Verma)
- **HackerRank Certified in Python** (Basic), demonstrating proficiency in 100+ fundamental syntax, data structures, problem-solving and solving coding challenges on strings, collections, and algorithms.
- Completed **Udemy certification: "Java Full Stack Developer" by Chand Sheikh(50+ hours)**, covering Java, Spring Boot, React, and MySQL.
- Achieved **Oracle Cloud Infrastructure 2025 Certified Foundations Associate**, validating core cloud infrastructure and platform services expertise.
- Completed **Google's 'The Bits and Bytes of Computer Networking' certificate**(40+ hours) gaining in-depth knowledge of network protocols, infrastructure, and cloud-based networking solutions.
- Completed **AWS Skill Builder** -AWS Technical Essentials

Virtual Job Simulations(Forage)

- Completed **JPMorgan Chase Software Engineering Virtual Experience (Forage)** by developing a Spring Boot microservice integrating **Apache Kafka, Spring Data JPA, and REST APIs** to process, validate, and persist high-volume financial transactions with end-to-end testing.
- Completed **AWS Solutions Architecture Virtual Experience (Forage)** by designing a **scalable, cost-efficient cloud architecture using AWS Elastic Beanstalk**, improving application performance and clearly communicating technical design and pricing to non-technical stakeholders.

WORK EXPERIENCE

SmartWeb Solutions(New Delhi)

January 2025 – April 2025

- Developed and optimized 10+ responsive web pages in an Agile team, resolving 20+ front-end bugs to improve performance by 30% and ensuring cross-browser compatibility across 5+ browsers/devices.

EDUCATION

St.Joseph's Academy

Dehradun, Uttarakhand

- Achieved 93% in 10th and 90% in 12th (PCM & Computer Science), demonstrating strong academic excellence alongside achievements in dance, basketball, and debating. .

Vellore Institute of Technology

Bhopal,Madhya Pradesh

- Pursuing B.Tech in Computer Science (CGPA 8.6/10) with strong foundations in Java, C++, DSA, OS, and DBMS, complemented by leadership experience as Dance Club Coordinator managing large-scale events (1000+ participants). . .
